

ABSTRACT

A non-rectangular or asymmetrically shaped credit card or phone card with an associated case or holder. The card has a configuration that complements the configuration of the case so that the card is easily removed from the holder for access, yet
5 is maintained inside the case in a covered position and is protected from abuse. The case is designed to be light-weight and easily carried and to serve as a device to carry the card in a safe and convenient manner outside of a wallet or purse. Alternatively, the card may be in an I-shape or square shape configuration.
